If you would like to purchase a service plan, we have plans for T-Mobile (\$13/month) At&t (\$15 a month without text and \$20 with text) and Verizon's network (starting at \$25 a month) prices do not include all fees.

<sup>1</sup> Will work for both regular Verizon and Verizon Prepaid – will also work for any carrier on Verizon's towers. These include but are not limited to Tracfone, Selectel, PagePlus, Net10 and more. **Although technically they should work for US Mobile, we do not guarantee it.**

<sup>2</sup> Will work for any carrier on Verizon's towers. These include but are not limited to Tracfone, Selectel, PagePlus, Net10, Safelink and more.

<sup>3</sup> Will also work for any carriers on T-Mobile's network such as Tello, Ultra.

<sup>4</sup> Will only work for carriers on T-Mobile's network such as Tello, Ultra. It will not work on a regular T-Mobile account.

<sup>5</sup> Will also work for carriers on At&t towers such as H20 and Airvoice.

<sup>6</sup> Please always use the SIM card included, using a different SIM card can cause issues.

<sup>7</sup> Although it works with other Verizon carriers, we only recommend Selectel (which we can set up for you) as they know how to remedy issues which may arise with this phone. **It will not work on US Mobile!**

<sup>8</sup> Service plan is \$10 a month for 500 MB (must be purchased via Safecell), or \$15 a month for 1GB. 2 months minimum + activation charge.

<sup>9</sup> The Samsung device is of better quality and has a faster response time.
